Budget certainty after COVID chaos

After years of COVID chaos, the Tasmanian Chamber of Commerce and Industry has welcomed the certainty delivered in today's budget.

"Tasmania's economy is in good health and this budget will help support that," said TCCI CEO Michael Bailey.

"The Government has been prudent with its investments and has thrown off the 'Enya' tag and this budget reminds me more of Goanna's hit 'Solid Rock'.

"However, this is only a forecast and as always, the Government will have its work cut out to actually deliver on what it has laid out.

"The Government's zeal for tackling difficult, decades-old intractable problems is also a key highlight from this week and I look forward to a serious conversation with the Government about tax reform and local government reform."
