SunCable announcement shows benefits of investing in renewable energy sector

The Tasmanian Chamber of Commerce and Industry is the voice of business in Tasmania and has welcomed news that SunCable is considering a significant investment in Tasmania.

TCCI CEO, Michael Bailey, said this showed how Tasmania can benefit from the renewable energy sector.

“If the SunCable facility goes ahead it will support hundreds of jobs and be a massive boost to Tasmania’s economy,” Mr Bailey said.

“This is just one example of how Tasmania will benefit from investing in and supporting our renewable energy sector.

“But there’s more that we need to do. We need to support the development of more renewable generation and we need to make sure that we have the supporting transmission infrastructure.

“However, today’s announcement is an important first step and the Government now needs to make sure the SunCable facility becomes a reality.”
